

North American Certification

Nemko offers a variety of certification services to demonstrate that your product has the necessary third-party approval to help you get your product on to the US and Canadian market. Whether the regulations require electrical Safety, wireless, telecom or energy efficiency certification, Nemko has what you need and what it takes.

Each market and each industry have specific and often complex requirements. Use Nemko's extensive knowledge and variety of product certifications to understand the requirements and issue the certifications you need.

For easy presentation of the various services, please see certification for:
