

Household products testing

We offer the following solutions:

- Pre-evaluation of your products and project management
- Testing in our in-house lab facilities, testing via our customer programs and testing in cooperation with our labs around the world
- Worldwide market access through our Nemko Direct program

Household products tested at Nemko include:

- Coffee machines, dishwashers, washing machines, irons, vacuum cleaners, kitchen appliances, refrigerators, cooker hoods, cooking hobs, kitchen ovens, panel heaters, sewing machines and hairdryers, among others.

Testing services

- EMC
- Performance
- Environmental and energy efficiency
- In addition to testing at our modern in-house facilities, we also perform on-site testing at the manufacturers premises.
