

# Vendor inspection can be a solution to find your suitable business partner

Nemko have qualified and experienced personnel that can perform vendor inspection across different types of products for the electrical, mechanical and telecom/radio product areas.

## Why use Nemko for Vendor Inspection?

- Nemko is a global organization with our own subsidiaries or affiliations around the world including: Norway, USA, Canada, China Mainland, Hong Kong, Taiwan, Japan, Korea, Germany, UK, Italy, France, Portugal, Finland, Sweden, Denmark and even in Uganda, Africa.
- Nemko Offers highly qualified personnel with an independent and neutral position, who act objectively and without bias to other parties involved.
- If you are placing a valuable order abroad, you have to ensure that both the technical quality and delivery time are compliant with your specifications and needs.
- Instead of spending your own time and incurring considerable travel expenses for this purpose, a sensible option is to engage Nemko to check the competence and monitor the process on your behalf.
- Localized Nemko employee have good language skills and understanding of the culture, which may be of critical importance in many cases.
- Even when you prefer to do inspection visits yourself, it may be wise to be assisted by local personnel, e.g. for preparations, support during your visit, and/or later follow-up.

Vendor Inspection services offered by Nemko include the following:

- Pre-qualification judgment of vendors
- Evaluating the vendor's capacity at the time of ordering
- Technical inspection according to the client's specification or referred standard
- Performance or witnessing of tests
- Final inspection before shipment/payment
- Expediting according to the client's delivery schedule
- Documentation review
- Checking of shipment arrangements
- Approval of commissioning runs
- Processing status and final reporting according to the client's need.
