

Certificates

At this page, you can do a search to check whether a specific certificate is authentic and valid.

Included Certificate Schemes are: **Nemko** (Nordic), **GS** (Germany), **ENEC** (European), **NRTL** (USA), and **CNEMKO** (Canada).

For **CB** certificates, please use the search function at the [IECEE CB database](#) [1].

Note that you will not be able to see the certificate, only a confirmation that the certification is authentic.

If you can't find the certificate, please send us an [EMAIL](#) [2] and we will do a manually search.

Guide:

- Both parameters need to be used in order to make a search
- Minimum 2 characters for each parameter
