To: Site Manger

FACILITY: Nemko S.p.A.

REGISTRATION No.: G-20084

Comments on Registration

We hereby notify that the Measurement Facility shown in the Certificate is fully examined and approved by the Registration Committee for Measurement Facilities. However, the Committee made the following comment(s) to take into consideration.

We recommend that you calibrate passive (non-electronic) measurement equipment at least once every two years.

We recommend that the test volume at 6 GHz to 18 GHz does not exceed the maximum width W' (2.0 m), as determined by the 3 dB beam width of the antenna STLP9148 proposed in your application.
